

# Trio Rebalancing Moisture Treatment™

++ A super-charged formulation that uniquely addresses the three critical elements to natural skin moisturization.

## INTENDED FOR

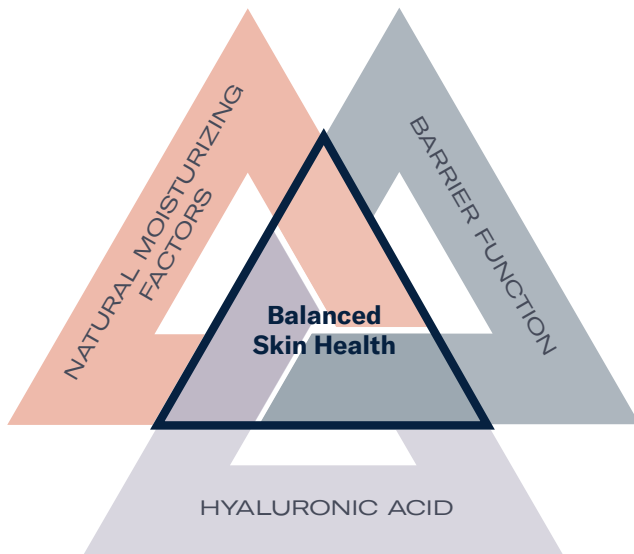

Skin that is dry and compromised by age and environment

## FEATURES & BENEFITS

- Bringing moisture and hydration balance back to skin
- Support healthier-looking skin, resulting in improved appearance of radiance, suppleness and smoothness
- Improvement in the look of fine lines, wrinkles and skin dryness

## HOW TO USE

- ☀️ 🌙
- Apply 1 to 2 pumps to the face, neck and décolleté

# Trio Rebalancing Moisture Treatment™

## TRIPLE-ACTION APPROACH TO MOISTURIZATION

	KEY INGREDIENTS	BALANCED SKIN HEALTH
NATURAL MOISTURIZING FACTORS	<b>Urea Complex</b>	Increases skin's resiliency and provides intense moisturization.
	<b>Sodium PCA</b>	Enhances skin moisture, smoothness and feeling of elasticity.
	<b>Salicornia Herbacea Extract</b>	Supports "water channels" in the skin for dramatically increased hydration.
	<b>Carnosine</b>	Biomimetic peptide that targets glycation and supports promotion of NMF.
	<b>Sodium Lactate</b>	Helps retain water in the skin.
BARRIER FUNCTION	<b>Cholesterol</b>	A lipid that enhances barrier function of the skin.
	<b>Ceramides 1 and 3</b>	Support hydration and reinforce the skin's barrier.
	<b>Linoleic and Linolenic Acids</b>	Essential fatty acids that support the skin's barrier (Omega-6 and Omega-3).
	<b>Carnitine</b>	A naturally occurring amino acid that restores and hydrates the skin.
	<b>Squalane</b>	Naturally occurs in the skin and supports moisture retention to improve skin suppleness and flexibility.
HYALURONIC ACID	<b>Aminopropyl Ascorbyl Phosphate</b>	Reduces HA degradation and increases skin smoothness.
	<b>Sodium Lactate</b>	Helps promote HA and keeps skin soft and supple.
	<b>Sodium Hyaluronate</b>	Helps provide skin with high moisture retention and free-radical protection.
SUPPORT	<b>Glycerin</b>	Provides hydration to the skin.
	<b>Caffeine</b>	Enhances hydration.
	<b>Jjoba Esters</b>	Provides hydration and supports the skin's barrier.
